**On**  
**GROWING TRENDS IN FOOD**  
**TECHNOLOGY AND NUTRITION FOR**  
**PUBLIC HEALTH CARE**  
**(ICGIFP-2016)**

**MAY 26–27, 2016**

**Venue**

**JNU New Convention Centre**  
**Jawaharlal Nehru University**  
**New Delhi**

## About the Conference

Food technology is a branch of food science which deals with the actual production processes to make foods. Food technology is a branch of science in which the food science is applied in manufacturing and preservations of food products. The food technologists study the chemical, physical and microbiological makeup of the food. The food is processed, preserved, packaged and stored according to the specifications by industry and government. The research and development in food technology has resulted into the production of safe and nutritious foods. Looking at the importance of the subject, IIFANS jointly announces its “7<sup>th</sup> International Conference on Growing Trends in Food Technology and Nutrition for Public Health Care (ICGIFP-2016)” May, 26-27, 2016 in Jawaharlal Nehru University, New Delhi.

## Date and Venue

**Dates : May, 26-27, 2016**

**Venue : JNU New convention centre  
Jawaharlal Nehru University  
New Delhi**

## Aim and Objectives of the Conference

The objective of the conference is to bring professionals of nutrition science and health sciences at one platform to exchange thoughts and share ideas. The aim of the Conference is to stay upto-date on emerging trends and provide a forum for discussion on topics related to nutrition and health among nutritionists and other professionals as Food Scientists, Food Processing Industry, Agriculturists, Food Technologists, Food Researchers and Health care providers working in the field.

## Themes of the Conference

The conference will cover a wide array of topics from the field of Food technology, Nutrition, Dietetics and Health Care. **ICGIFP-2016** will incorporate ground-breaking research, keynote addresses from leading scientists and opportunities for exchange with participants from all over the world. The papers in the below themes and any other related area are welcome.

- Recent advancements in Food Technology
- Emerging Food processing techniques
- Biotechnological and Nanotechnological approaches in Food processing
- Nutritional Techniques and Methodologies
- Advances in Clinical Nutrition
- Public Health and Nutritional Sciences
